

# HELLO FALL

Fall is the best Bear Lake season of the year! Don't question this assertion, because last year we did a survey and you overwhelmingly voted FALL!! The lake is placid and the valley is quiet. There some things that need to be done though.....

## Our fall necessities

Everyone knows about football and foliage, but there's a lot to do to get your place ready for winter. We have begun sprinkler shut downs and fall yard cleanups will begin the middle of October. A few more things you want to remember to check or have us check are:

- heater cables
- furnace
- if you keep your place warm, beware that the furnace condensation can freeze up a sewer line. We saw quite a bit of that last winter.

- water source- make sure it is all the way on or off.
- roof line
- vole infestation potential
- make sure your hot tub is maintained
- fill your propane tank
- turn off your lights
- shut your doors

### Author in our family

Brianna Brady Huefner (married to Reagan) is an author and has published her first book. Holy Shift is her experience of abuse and trauma. I invite you to purchase her book and gain a deeper understanding of abuse and trauma in our society and how to overcome it. This has been a learning experience for me.
